Carbon Reduction Commitment

MacPherson & Colburn Ltd t/a Westbourne Motors is committed to achieving net zero emissions by 2050.

We are looking at ways to achieve this and how the roadside and recovery industry as a whole are planning to make such changes.

The introduction of fully electric recovery vehicles is in it's new/ development stage, something we will investigate and monitor.

This net zero commitment by Westbourne Motors has been discussed and agreed at Board Level with senior managers and the MD.

The monitoring of emissions will be reviewed on a monthly basis as required across all areas we propose to look at within scope 1, 2 and 3.

This Carbon Reduction Plan (CRP) will be overseen and managed by the SHEQ Manager for Westbourne Motors.

Signed_____Dated October 2026
